Creativity starters as easy as ABC! Okay, maybe it's not always that easy but these ideas just might get your creative juices flowing for your next piece.

Print out, cut up, and place inside a recycled spaghetti sauce jar or coffee can (not provided). A fun alternative is to make "Creative Bone" prompts for your jars by getting popsicle sticks or collecting smooth sticks ("bones") from the yard--non poisonous! Write prompts along one end of each stick, then place all in a jar. Pull out a prompt for daily or weekly inspirations to last up to a year!
