Spaghetti Jar Prompts

Print out, cut up, and place inside a recycled spaghetti sauce jar or coffee can (not provided). A fun alternative is to make "Creative Bone" prompts for your jars by getting popsicle sticks or collecting smooth sticks ("bones") from the yard--non poisonous-- and writing prompts along one end, then placing in a jar. It's just a matter of reaching in and pulling out a prompt for daily or weekly inspirations to last up to a year!

Happy Cooking!
